

Type –I

Port No.	TX	RX	E&M
1	1	2	3
2	4	5	6
3	7	8	9
4	10	11	12
5	13	14	15
6	16	17	18
7	19	20	21
8	22	23	24
9	25	26	27
10	28	29	30
11	31	32	33
12	34	35	36
13	37	38	39
14	40	41	42
15	43	44	45
16	46	47	48
17	49	50	51
18	52	53	54
19	55	56	57
20	58	59	60
AND SO ON			

Type – II

Port No.	TX	RX	E&M
1	1	2	3
2	4	5	6
3	7	8	9
4	11	12	13
5	14	15	16
6	17	18	19
7	21	22	23
8	24	25	26
9	27	28	29
10	31	32	33
11	34	35	36
12	37	38	39
13	41	42	43
14	44	45	46
15	47	48	49
16	51	52	53
17	54	55	56
18	57	58	59
19	61	62	63
20	64	65	66
AND SO ON			

For easy calculation (Type-I)

(Port No. X 3) – 2

For eg: Krone output for channel No./Port No. 20 is

(20 X 3) – 2

60 – 2 = 58 for TX, 59 for RX and 60 for E&M

For Control circuit take output from 58 and 59

For Auto phone circuit take output from 58

In Type-II, no wiring is termination in 10, 20,

Each 10 Pair Krone consist of 3 Channel output.
