

OFC Connectors & accessories

S.No	Picture of Connector	Name of the Connector	Used for
1		FC Connector (Ferrule Centred)	Connectors
2.		SC Connector (Straight Connector)	Connectors
3.		ST Connector (Straight Tip)	Connectors
4.		FDDI Connector (Fibre Distributed Digital Interface)	Connectors
5.		LC Connector (Lucent Connector)	Connectors
6.	 NCB-FM62S-SC1	Pig Tail Cable	To terminate OFC Cable in FMS
7.		FC-SC Patch Chord	Single Mode Patch Chord (Yellow Colour) – to connect equipment
8.		FC-FC Patch Chord	Multi Mode Patch Chord (Orange Colour) – To connect Equipment
9.		SFP Module (Small Form Factor Pluggable)	Fibre Interface of the Equipment

S.No	Picture of Connector	Name of the Connector	Used for
10.		Media Converter	To extend LAN through OFC Cable
11.		Couplers	For fibre patching
12.		Fibre Protection Sleeve	To protect Splice
13.		Power Source	For fibre continuity test
14.		Power Meter	To test Receive Power of Fibre
15.		OTDR (Optical Time Domain Reflectometer)	To measure transmission loss and OFC cable distance
16.		Cleaver	To cut fibre at 90' before splicing
17.		FMS (Fibre Management System)	To terminate OFC Cable – Fibre termination Box
18.		OFC patch panel	To terminate Patch chords (like Krone)
